CAREER OBJECTIVE

Motivated Computer Science and Engineering graduate aspiring to build a career as a Python Full Stack Developer. Strong foundation in Python, HTML, CSS, JavaScript and SQL, with hands-on experience developing academic projects and web-based applications. Seeking an entry-level opportunity to apply programming and problem-solving skills while contributing to real-world software development.

EDUCATION

B.E– Computer Science and Engineering | [Erode Sengunthar Engineering college], [Perundurai] | 2026 | CGPA: 8.3/10

Class XII | [Government Boys Higher Secondary School,Perundurai] – [State] | 2022 | 82%

Class X | [Adhiyaman Government Boys Higher Secondary School,Dharmapuri] – [State] | 2020 | 85%

TECHNICAL SKILLS

Frontend: HTML5, CSS3,JavaScript | **Backend:** Python | **Framework:** Django |

Database: MySQL | **Tools:** Git, GitHub, VS Code, | **Deployment:** Heroku, Netlify, AWS basics

Soft Skills: Full Product Ownership | Agile Methodology | Debugging | Team Collaboration | Self-Learning

PROJECTS

Secure Image Encryption and Retrieval Framework Using CNNs and Streamlit (*Python,CNN,Streamlit,Image processing*)

Developed a secure image encryption and retrieval application integrating CNN-based image processing with a Streamlit web interface.

Implemented image encryption and retrieval functionality through a user-friendly web application.

Integrated deep learning techniques for image feature extraction and classification.

Suggestive Automated Mental Health Identification System (*Python | Machine Learning | Data Processing*)

Developed an academic machine learning project for automated identification and suggestion based on input data.

Applied data preprocessing and machine learning techniques to build the prediction workflow.

Designed the system to provide automated results based on the processed input.

CERTIFICATIONS

Cloud Computing – NPTEL | Elite+Silver Certification

Python Programming / Python Basics | Infosys Springboard

Introduction to Generative AI | Simplilearn

ACHIEVEMENTS

1)Presented the project “**Secure Image Encryption and Retrieval Framework Using CNNs and Streamlit**” at the **International Conference on Advances in Engineering, Technology and Science (ICAETS-2025)**.

2)Cleared the **first round of IEEE CS Project Awards** with the project.

3)Developed and presented an academic project combining **Python, CNN and Streamlit** for secure image processing.
